DETAILED ACTION

Reissue Applications

1. This is in response to a letter for patent filed on February 05th, 2001 in which claims **3-5** have been amended and new claims **6-18** have been added.

Priority

2. Receipt is acknowledged of papers submitted under *35 U.S.C. 119(a)-(d)*, which papers have been placed of record in the file; i.e. the certified copy of the foreign priority document has been filed.

3. Claims **6-18** are rejected under 35 U.S.C. 251 as being improperly broadened in a reissue application made and sworn to by the assignee and not the patentee. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Allowable Subject Matter

4. Claims **3-5** are allowed over prior art.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or fairly suggest a robot control system for controlling the operation of the robot having a plurality of states wherein the operating data producing means suppresses the production of the operating data corresponding to a self operational arc before a transition in state and after said transition in state when the states of the robot the transition of state and after the transition of state coincide in combination with other element and features cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

*** The prior arts cited in PTO-Form 892 disclose pertinent information related to the claimed invention. Applicants are requested to consider the prior art reference for relevant teachings when responding to this office action.
